Who is the Advanced Diploma of Civil Construction Management suitable for? Very Experienced

- Construction Managers
- Project Managers
- Superintendents...
- Engineers
- Owners

(employees who can review or create civil construction plans; environmental, quality, risk, operational and safety systems; direct multiple projects; supervise staff and contractors...)

You will discover and implement the practical strategies that will make a REAL difference to managing your civil construction projects:

- ✓ Supervise your team and projects, supervise your subcontractors
- ✓ Increase your teams productivity, safety, performance and morale
- ✓ Deliver multiple projects on-time and in-budget and more effectively
- ✓ Reduce the time you need to put out 'emergency fires'
